

The Simone de Beauvoir Institute, with the collaboration of
The Faculty of Engineering and Computer Science,
The Liberal Arts College, and
The Visiting Lecturers Committee of Concordia University
present the second lecture in the series on

Women and Science

January 27 at 18h30

Dr. Ellen Balka

*Assistant Professor and Programme Coordinator, Women's Studies Programme
Memorial University of Newfoundland*

"Computer Network and Women's Organizations: The Need for New Design Strategies"

Ellen Balka, Ph.D., a recent graduate of Simon Fraser University, conducts research on women's organizations, social change and computer networks. Her research into how technology affects union employment has enabled her to design and evaluate the use of educational material in order to teach women workers about technological changes. Dr. Balka continues her work as an active researcher on women's use of computer networks in the context of feminist social change.

This talk will be presented in the Lounge of the Institute (2170 Bishop).

R.S.V.P. BEFORE JANUARY 23, 1992
